Subject to rejection above 5.0

All Dockage & Foreign Material to be deducted from gross weight.

Duffy Grain reserves the right to make changes to these schedules without notice.

We allow 7 days after your last load, or between loads, before grain must be spotted out or place on DP contract.

Wheat Marketing Options:

Minimum Price Contract: A minimum price contract puts a floor on the price you receive but allows you to take part in higher prices should the market move higher after the grain is delivered for a fee. You receive the money at the floor price right away and any additional money at the time the contract is priced.

Delayed Price Contract: A delayed price (DP) contract allows a producer to price grain after harvest, until April 26th, 2019. Under a DP contract, the title of the grain is turned over to the elevator. We do not offer storage for wheat. DP wheat is charged at \$.20 per bushel to September 30th and \$.04 per month thereafter.
